

Over 50 Years of Serving Congo

Paul Carlson Sunday

1964

California. Chicago. Congo.

Dr. Paul Carlson was a man who responded to a call to become a medical missionary to DR-Congo with the Evangelical Covenant Church. He and his family traded a then-lucrative \$12,000 per year salary for \$3,000 per year and a backyard jungle. In the town of Wasolo, he served a population of 100,000 through an 80-bed hospital and a leper colony.

When rebels grew in power and missionaries were forced to evacuate, Paul helped his family to safety. Knowing that he was the last doctor in the area, he returned across the river to continue serving his friends. Soon after, the rebels kidnapped Paul.

Even in this difficult time of captivity Paul was known to be kind and caring, treating the wounds of rebels and their hostages alike, ministering to those around him with both prayer and humor.

On November 24th, 1964, the Belgians and Americans launched a rescue mission for the 1,000 people trapped at Stanleyville. As the paratroopers approached, the rebels opened fire. Many people died that day, and photos of Paul Carlson appeared on the covers of Time and Life magazines to honor the life of the martyred missionary.

The Paul Carlson Medical Program was founded shortly after his death. What began with one hospital and a passion for bringing medical care to the Congo has grown into the Paul Carlson Partnership.

Today

With 50 years of legacy experience, Paul Carlson Partnership serves medical and economic development in DR-Congo. We partner with the Covenant Church in Congo to support their medical system of 5 hospitals and dozens of clinics, caring for a population of over 800,000 people. Medical professionals, engineers, business, and micro-finance professionals, and other passionate individuals, are invited to join our vibrant, expanding volunteer force. Partner with us and Congolese leadership, learn about Congo, invest in local ownership, and multiply your impact by “training the trainers” in Congo. Together we raise the standard of healthcare, support local businesses, and equip better livelihoods in the poorest region of the poorest country in the world.

Join us!

We invite you to partner with us in the following ways:

- Learn more at paulcarlson.org, read our blog, sign up for our newsletters, and follow us on social media.
- Give to our partner programs through online giving or by mail.
- Serve as a Medical Ambassador or volunteer in a variety of ways.
- Pray for our partners!
- Contact us to find out more: (773) 907-3302
